PRACTICALITY THROUGH PRECISION

I pride myself on understanding the user, before delivering a practical outcome. This is achieved through intuitive design and problem solving that actually matters.

Given the design landscape is evolving rapidly, I am well versed in the latest tech and can pick up new skills incredibly quickly.

EXPERTISE

DESIGN

- Graphic Design
- Product Design
- UI/UX Design

AI TOOLS

- Codex
- Google Flow
- Google Stitch

SOFTWARE

- Adobe After Effects
- Adobe Illustrator
- Adobe Indesign
- Adobe Photoshop
- Adobe Premiere Pro
- Autodesk Fusion
- Figma
- Solidworks
- Visual Studio Code

PROFESSIONAL LEGACY

- Senior Industrial & UI/UX Designer MAR 2021 - PRESENT
ARLEC / MERCATOR / DETA
Heavily involved with the Grid Connect home automation app and platform. Designed several products, dozens of 3D animations and worked extensively on product packaging.
- Industrial Designer & 3D Printing Technician JAN 2020 - MAR 2021
AMIGA ADDITIVE MANUFACTURING AND ENGINEERING
Built the Polymer 3D Printing Division from the ground up, designing custom pieces for clients and working with a wide range of materials from Titanium to medical grade polymers.
- Junior Industrial Designer AUG 2017 - FEB 2018
GUSH GLOBAL
Worked with a design team focused on unique POS displays and experiences for various major Australian retailers.

EDUCATION

- UI/UX Design for AI Products (XGAL0001) AUG 2025 - OCT 2025
STANFORD UNIVERSITY
Developed several UI wireframes and other user facing designs leveraging human-centred AI technology. Also did considerable research into AI-Powered Design theory.
- Bachelor of Industrial Design (Honours) MAR 2016 - DEC 2019
RMIT UNIVERSITY
Second Class Honours in University, designing and prototyping everything from a Motorcycle, to a Pinball Machine. Also self-taught Android App Development for my final honours project to bring the digital and physical closer together through blockchain technology.
