STEP 1

Add water to the Robotic Window Cleaner with the supplied bottle.

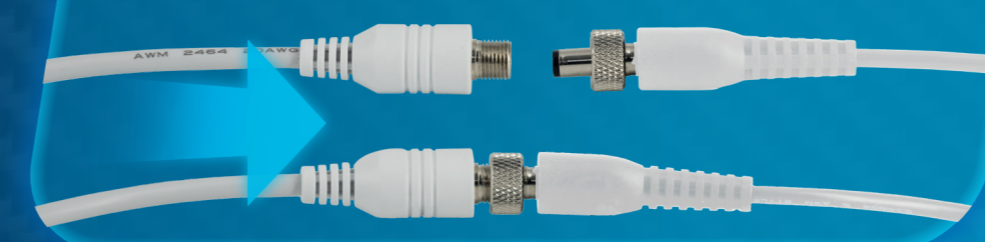

STEP 2

Wash the cleaning pads by hand or in the washing machine to ensure the best outcome.

STEP 3

Connect the power cord to the Robotic Window Cleaner and plug it in to the power outlet.

STEP 4

Put the Robotic Window Cleaner on the glass and press the power button until it turns 'ON'.

STEP 5

Use the remote or app to start cleaning. For dirty windows, start with a dry cycle and finish with a wet cycle. Refer to the instruction manual for more details.
